Program Agreement

This agreement shall commence as of August 28, 2024. This program agreement shall abide by all language of the Institutional Agreement between Kalamazoo Valley Community College and Western Michigan University.

This program prepares educators for work in a variety of early care and classroom settings serving infants through kindergarten-age children. Following completion of the curriculum, graduates will be eligible for credentialing as early childhood/early childhood special education (BK/ZN) teachers under MDE regulations. The major integrates courses focused on child development, diverse family and community relationships, early childhood education, special education, and content area knowledge and pedagogy. It prepares educators to teach and work with young learners and their families to meet the socio-emotional needs of the whole child and to implement developmentally appropriate practices and intensive interventions in response to both typical and atypical development. Preparation for work with young children, their families, and the direct and ancillary services dedicated to them, is most effective when informed by the multi-dimensionality of early growth and development. Study in the Early Childhood General and Special Education: Birth through Kindergarten program at Western Michigan University features an interdisciplinary structure that anchors professional learning and experience within the disciplines and best practices of early childhood education, family science, and special education.

All education students are coded Pre-Education upon admission to Western Michigan University (WMU). Candidates must apply for advancement to the professional program. Pre-education students are not permitted to enroll in upper-level professional education courses until admission requirements are met and upper-level application is submitted and approved. Students should meet with an Academic Advisor in WMU's College of Education and Human Development Advising Office to learn how to apply for upper-level admission upon applying to WMU.

Paige Eagan, Ph.D.

Provost and Vice President for Instruction & Student Services
Kalamazoo Valley Community College

Billy Reynolds, Ph.D.

Dean of Instruction, Liberal Arts & Sciences
Kalamazoo Valley Community College

Laura Dinehart, Ph.D.
