TBO Discussion

a. Personnel Items
   o Reported that Dona Rocha, Rob VanderWeele and Robert Sutton have submitted their resignations and one part-time employee, Carl Lawrence, has also resigned.
   o Two finalists have been identified for the director of facilities position and a recommendation to fill that position should be coming soon.
   o Applications are continuing to be received for the director of public safety position.

b. Reality Checks
   o A question was raised about facility rentals on weekends during the summer when we are closed. The policy will be reviewed at next week’s meeting.
   o Mentioned that a prospective student had called the college requesting information about a program listed in Career Source; the student did not get a return phone call. There was some confusion about which number to call and that the Career Source may want to consider only listing one phone number. Jim will follow up with the student and Mike will follow up with the phone number issue.

c. Kudos!

d. Other TBO
   o The Cabinet members shared how they are learning about the strengths of their team members.

Other
• Mentioned that the M-TEC has been using Twitter for our wind energy tech program and questioned whether or not it fits our policies in terms of communications – who can tweet
on behalf of the institution and how do we control what is being tweeted. It was agreed that this needs further discussion and will be on the Cabinet’s agenda in two weeks.

- Mentioned that there is a comprehensive wind energy tech program offered by a training facility in Oklahoma.
- Lethbridge College has created a skills “passport” for graduates of its wind tech program. It provides students with documentation of their skills in specific categories. A similar passport could be developed for KVCC’s programs that require certification or even as a way to document student strengths.
- Reminded everyone that Greenleaf Hospitality will begin food service operations at the Texas Township Campus on July 6.
- Concerns were raised regarding the possible decrease in funding for work study positions – this will impact the number of positions we can fill.

- Louise is in the process of reviewing our procedures for disposal of equipment and she will bring forward a draft policy in a couple of weeks.
- Concerns were raised about the potential changes in Financial Aid and whether money initially promised to students will not be forthcoming.
- Briefly mentioned the schism between the training and the academic side of the institution and the need to cooperate more. Jim and Bruce will begin the conversation.
- Shared an article from the New York Times on how some colleges are cutting costs.
