

COMMUNITY CONNECTED PROJECT-BASED LEARNING

PLTW Teachers!

Join us for a three half-day, in-depth PLTW with a PBL twist training!

Connect your PLTW lessons to a Business/Industry professional. Extend your students' practice in 21st Century skills through active exploration of real-world problems.

Business/Industry partners will be available to begin collaboration.

Seats for 25 teachers are reserved for PLTW teachers until May 1, 2021. After that date, unfilled seats will be offered to others.

\$300 teacher stipend for attending with an additional \$300 assortment of classroom supplies and PBL aids. At least one day of coaching during implementation is required.

PLTW teachers will connect with a business/industry partner and will build an extension to a PLTW unit that they already do with students. This will add an extra layer of authentic learning and an authentic audience to this excellent curriculum.

Learning goes deep! Increase student engagement!
