Imagine that you are in an elevator with the one person who can make your next career move possible. You have about 30 seconds to convince this person that you are right for the job. What would you say?

This is the premise behind the elevator pitch, or the 30-60 second commercial, and is a way to introduce who you are as a professional to any new person. Remember that your professional introduction pitch should really be a conversation and flow naturally. It should include essential elements such as:

- Your name, your current level of education, area of interest, your skills and abilities, goal, and asking for a meeting.

Take the opportunity to work on your professional introduction using the following outline.

1. **Who are you:** (name)

2. **What you want:** (type of work, career, industry, information)

3. **What do you bring to the table:**
   a. **Skills:** (3-5 skills)
   b. **Value:** (1 value)

4. **Putting it all together for you Professional Introduction:** (write it)
